

## FUND SHOWING GOOD INCREASE

SUM OF \$229.09 REMAINING  
FROM TRACTOR SHOW TO BE  
GIVEN, IS PROPOSED

## TREASURER REPORTS

BALANCE TO AID BUILDING OF  
FLOAT IF NO OBJECTION  
MADE BY SUBSCRIBERS

The fund being subscribed to place a float representing the city of Glendale in the Tournament of Roses parade in Pasadena on New Year's day passed the \$600 mark today and there is every indication the amount desired by the float committee, a minimum of \$1,000, may be reached tomorrow if those intending to make subscriptions will at once turn in their checks.

It was announced today that the sum of \$229.09 remaining in the fund raised in behalf of the tractor show will be turned over to the Greater Glendale Development association and the Glendale Chamber of Commerce and by those organizations given to the fund being subscribed by the people of Glendale for the float, provided no objection is made by subscribers to the tractor fund.

### Suggested by Subscribers

It is stated that a number of subscribers to the tractor fund, knowing there is a balance on hand, have suggested that the money remaining be given to the float fund through the Development association and the Chamber of Commerce, in view of the fact that the float is a community display, is for advertisement of all Glendale and because of the further fact the \$229.09 will bring the float fund close to the amount sought by the committee.

H. Nelson, treasurer of the tractor fund, announced today that all bills had been paid and that there is a balance of \$229.09 remaining. A total of \$1,299.50 was subscribed for the show. A total of \$1,070.41 was expended. All the bills were passed upon by the various chairmen of committees before payment was made. Every bill is on file and open to inspection by anyone who may be interested.

### Will Be Substantial Aid

There being no further claims against the balance remaining and as subscribers to the fund are suggesting it be given to the Development association and the Chamber of Commerce and by those organizations handed to the float committee, if there is no objection filed by subscribers to the tractor fund, this action will be taken—and that will result in the float fund passing the \$600 mark. With such substantial aid, it is believed that if others planning to give to the fund will today or in the morning turn in their checks, the amount desired by the committee will be reached within a day or so.

It is proposed that the float committee keep a record of its expenditures so that the public will know how the entire fund is spent and this will be done.

## Burton-Chandler Buy Lot Northeast Corner of Brand and Harvard

Real estate men have been called by men of discernment the harbinger and promoters of community prosperity; for they are consistent and persistent boosters, and in perhaps larger measure than any other class of citizens they are instrumental in bringing into the community desirable new residents.

Most of them are men of vision, and when they show their faith in their city by substantial investment of their own money, surely the most pessimistic and suspicious must admit that they give concrete evidence of the sincerity of that faith.

This mark of sincere faith in Glendale's future has just been bestowed upon her by the Burton-Chandler realty company, of 133 South Brand boulevard. They have bought the lot at the northeast corner of Brand boulevard and Harvard, for a consideration of \$20,000.

This is in the very heart of Glendale's business section, and is one of the finest building sites in the city. It has a frontage of 62 feet on Brand boulevard, and 120 feet on Harvard street. The property belonged to Harwood Bristow, who lives in Virginia.

## W. C. Cutler Is Today At Head Of List Of Subscribers To Fund

W. C. Cutler, 1327 North Louise street, today has the honor of leading the list of subscribers to the fund being subscribed for a float in the Tournament of Roses parade in Pasadena, his subscription of \$20 being the largest thus far received.

Mr. Cutler is a well-known inventor, having about 500 patents to his credit. He has been a resident of Glendale for a number of years and realizes the advertising the city will obtain by having a float in the parade.

The complete list of subscribers to the fund to date follows:

W. C. Cutler	\$ 20.00
Glendale Sheet Metal Works	15.00
L. G. Seavern	10.00
Mrs. C. H. Toll	10.00

## Selected Chairman

WASHINGTON, D. C., Dec. 16.—Edward McLean of Washington will be chairman of the inaugural committee which will have charge of the inauguration of President-elect Harding on March 4.

## En Route To Greece

VENICE, Dec. 16.—King Constantine today was en route to Greece. He was aboard one of five battleships which slipped away from here today with great secrecy.

## Motion To Modify

WASHINGTON, Dec. 16.—A motion to modify the terms of the recent supreme court decree dissolving the Lehigh Valley Ry. and coal combine was filed with the court today by the companies involved.

## LORD MAYOR IN PULPIT.

BRISTOL, Eng.—For the first time in history, the lord mayor of Bristol preached in the Bristol cathedral, to a crowded congregation. He begged employers to find work for ex-service men and other unemployed, and begged the people generally to pull together during the present times of unrest.

## RECORD IS SET BY SCOUTS NO. 2

LOCAL ORGANIZATION WINS  
CHAMPIONSHIP FOR FIVE  
STATES, ANNOUNCED

## CELEBRATION IS HELD

SPLENDID ADDRESS GIVEN BY  
SEVERAL INTERESTED IN  
WORK DONE BY BOYS

An audience of more than two hundred, parents and friends of Boy Scouts, Troop 2, enjoyed the entertainment prepared by the Troop on Tuesday evening at the high school auditorium.

This program was given in celebration of the Troop's attaining the championship of not only this state, but also of the district, which includes five states.

Splendid addresses were made by C. W. Ingledue, president of Glendale Boy Scout Council; Attorney Charles L. Chandler, chairman of the Troop committee, and Thomas M. Buley, scout commander, of Los Angeles.

H. Benjamin Robison, assistant scoutmaster of Troop 2, gave a short history of the Boy Scout movement. The little play given by the Troop, illustrative of Scout life, was a bright and entertaining number. The boys came in as if returning from a hike, made camp, started their camp fire, and gave songs and yells.

The yells were led by the biggest fellow and the littlest one, and the result was, indeed, comical. Then taps sounded and they went to bed. 'Twas morning in the next scene; there were setting up exercises, in which everything went wrong, then the boys had breakfast, and it fairly rained pancakes. These pancakes were reinforced by wire mesh to make 'em last longer, the boys said.

Group of Songs Enjoyed

The solos of Mrs. Laura Stevenson Spang were delightful, as they always are. Her group of songs included Schubert's "The Trout," an "Irish Love Song" by Thayer, "Lad-die" by Lang, and Watson's "Oh, Quit Your Kicking." At the close of the program she sang the "Battle Hymn of the Republic" just as she sang it for the soldiers in the army camps during the war.

The address of Mr. Buley was worthy of special mention. He incorporated in it a story, "Tom of the Mountains," which illustrated the value of scout work, the significance of the development of the love of nature in the boy, and its consequent ennobling of his character.

Four boys were decorated as Eagle Scouts by Scoutmaster Benjamin Robison; it is an unusual circumstance to have four Eagles decorated at the same time. The boys receiving this decoration were C. G. Farrow, Thomas Wood, Arthur Wetton and Burton Kuntzner.

There were also four Star Scout decorations awarded by the Scoutmaster: C. G. Farrow, Arthur Wetton, Willard Roberts and David Roberts.

## ANNUAL ELECTION

MRS. PAULINE JONES CHOSEN  
AS PRESIDENT AGAIN BY  
D. OF V. MEETING

The annual election of officers called out a good attendance at the meeting of the Mary Jane Gillette Tent, Daughters of Veterans, on Tuesday evening.

Mrs. Pauline Jones was re-elected president by a unanimous vote. The re-election of Mrs. Charlotte McKee, as senior vice-president, was also unanimous. Mrs. Pearl Moore was elected junior vice-president; Mrs. Susie Peck was chosen chaplain by unanimous vote; Miss Audrey Hall was elected treasurer; Mrs. May Burdington, patriotic instructor.

The three council members elected are Misses Olive Pixley, Annie Miller, and Mrs. Agnes Richardson.

Installation of officers will take place on January 11, at which time the names of appointive officers will be made known.

Mesdames Agnes Richardson and Clara Gulvin were initiated at Tuesday evening's meeting. An interesting circumstance of Mrs. Gulvin's initiation is the fact that the Mary Jane Gillette Tent is named for her mother. For this reason, although she lives in Long Beach, Mrs. Gulvin chose to become a member of this tent.

Final arrangements were made for the social and sale which the Daughters of Veterans held last evening in Hurt's hall.

## DISPOSAL PLAN DISTRICT FIXED

INSTALLATION OF SYSTEM TO  
CARE FOR SEWAGE IN PART  
OF CITY IS PROPOSED

## ACTION BY PETITION

SIX BLOCKS IN CENTER OF  
BUSINESS SECTION TO BE  
SERVED, IT IS PLANNED

Called to a public meeting at the city hall last night for the purpose of discussing the suggested installation of a sewage disposal system for the business district of Glendale, a number of business men and property holders met and, on motion of Mattison B. Jones, passed a resolution to the effect that a petition be prepared for circulation asking the board of trustees to order the improvement.

The motion, which passed unanimously, provided that the petition contain all necessary data, including an estimate of cost, relative to the installation of a sewage disposal system for that section of the business district fronting on Brand boulevard from Colorado street north to Wilson avenue and between Maryland and Orange. Six blocks would be served under the proposed plan.

The system as proposed last night would not be a permanent one, it was pointed out, but would relieve the present situation. The claim was made that the cesspools in the business district are not now taking proper care of the sewage; that the district has greatly outgrown the cesspools.

### Petition Ready After Christmas

F. H. Olmstead, of the firm of Olmstead & Gilman, who outlined the city's sewerage requirements and who told of what Los Angeles is proposing to do to meet its own necessities, stated that he would, in conjunction with Courtland L. Hill, city engineer of Glendale, prepare a map of the proposed district, an estimate of cost and other data, also a petition to be circulated among property owners in the district asking that the work be ordered by the trustees.

It was explained by City Manager T. W. Watson that the city has the authority to order the work done without a petition, but it was preferred that the property owners themselves petition for the improvement.

The system as proposed will consist of pipe lines to collect the sewage which would then be carried to

(Continued on Page Five)

### Sewing Club Meets

Mrs. Roy Hincheliff, 440 West Milford street, entertained a sewing club at her home Tuesday. Red candles and Christmas decorations were carried out on the luncheon table and in the living rooms. After luncheon the ladies spent the afternoon in sewing. The Glendale ladies who are members of this club and who enjoyed Mrs. Hincheliff's hospitality were Mrs. Robert Kimball, Miss Olive Williams and Mrs. Dr. Geo. Burton, the remainder being of Los Angeles.

### Christmas Luncheon

Mrs. Lewis Leppelman, 1536 Lorraine street, entertained a number of her friends at a Christmas luncheon today. Those present were Mesdames E. F. Clement, Wm. Lane, Ed Duffy, Geo. Mitchell, Jr., and A. B. Clement. A miniature Christmas tree formed the center piece of the dining table. This was covered with ornaments and gifts. The living rooms were decorated with holly.

### Will Be Hanged

SAN QUENTIN PENITENTIARY, Calif., Dec. 16.—Maher Singh, Hindu, convicted of killing five of his countrymen in Contra Costa county following a quarrel over money, will be hanged here tomorrow.

### Americans Molested

PARIS, Dec. 16.—American citizens in Smyrna have been "molested," following declaration of a state of siege by Greek troops and French, the foreign office declared today. Official dispatches gave no details.

### PADEREWSKI TO PLAY NO MORE

PARIS.—M. Paderewski has informed the press that, owing to neuritis in the hands, he will never touch a piano again, and that the private instrument which he has taken with him everywhere in his travels is now for sale.

## RECORDS EARTHQUAKE OF GREAT FORCE

(Special Service to Glendale Evening News)  
CHICAGO, Dec. 16.—An earthquake of great force, described as being the severest in the last two years, was recorded on the government seismograph at the University of Chicago today. The center of the quake was said to be little more than 3000 miles away in an easterly direction.

SANTA CLARA UNIVERSITY, Cal., Dec. 16.—The earthquake recorded by the University of Chicago today probably occurred to the north of Iceland, Father Ricard of Santa Clara University said today after comparing the data from Chicago with that shown on the seismograph here.

## SUSPECT ASSAILANT IS TAKEN BY POLICE

(Special Service to Glendale Evening News)  
LOS ANGELES, Dec. 16.—A man suspected of having attacked Mrs. Mary Mason, wife of Clarence H. Mason, was captured early today by police and members of a mob of Edendale citizens after an exciting chase through underbrush and ravines. The suspect, whose name is withheld, is being held awaiting possible identification by the woman.

The police department of Glendale was called upon to aid in the chase and assistance was given.

## SEES ATTEMPT TO BEAT PURPOSES OF LAW

(Special Service to Glendale Evening News)  
SACRAMENTO, Dec. 16.—An organized attempt is being made in southern California to defeat the purposes of the alien land law act passed in the November election by a four to one majority, State Comptroller Chambers, executive chairman of the California Japanese-Exclusion League, charged in a statement today. An organization known as the People's League of Justice has been formed in Los Angeles for the purpose of overriding the vote on the Japanese land leasing measure, Chambers declared.

## WARNS AGAINST TROUBLE WITH JAPAN

(Special Service to Glendale Evening News)  
NEW YORK, Dec. 16.—The United States for heeding "malicious propaganda" will be more at fault than Japan if war ever breaks out between the two nations, Judge Elbert H. Gary, chairman of the United States Steel Corporation, declared here today. Gary was introduced at a dinner of the Japan Society here as "Japan's best friend." In his speech he warned representatives of both nations against "malicious trouble makers" infesting both countries in an effort to bring about war.

## NEW PEACE CONFERENCE MAY BE CALLED

(Special Service to Glendale Evening News)  
MARION, O., Dec. 16.—Calling of a new peace conference to meet in the United States to revise the League of Nations covenant or organize a new association of nations is one of the projects under consideration by President-elect Harding. The conference probably will be held in Washington. Harding has not made final decision on the proposal, but is understood to be seriously considering it. Such a conference, Harding's advisors say, either would revamp the existing league's framework or create an entirely new structure.

## PLANS SUPERVISION OF COAL INDUSTRY

(Special Service to Glendale Evening News)  
WASHINGTON, Dec. 16.—Supervision of the coal industry by the federal trade commission probably will be provided in a bill now being drawn by Senator Calder, republican, of New York. The proposed bill is the result of Calder's report to the senate that coal profiteering is a "national disgrace," partly responsible for the serious house shortage, and is retarding reconstruction generally.

## BEGIN OFFENSIVE FOR PEACE IN IRELAND

(Special Service to Glendale Evening News)  
LONDON, Dec. 16.—British labor today began an offensive for peace in Ireland. After a long forenoon session, an executive commission, representing the labor party, arranged to send a deputy to Premier Lloyd George in the interests of peace.

## LEAGUE MEMBERSHIP FURTHER INCREASED

(Special Service to Glendale Evening News)  
GENEVA, Dec. 16.—Membership of the League of Nations was raised to forty-six today by the admission of the states of Luxembourg, Bulgaria and Finland. Austria was admitted yesterday.

## MEASURE ON STRIKES PASSES SENATE

(Special Service to Glendale Evening News)  
WASHINGTON, Dec. 16.—The senate today passed the Poin-dexter bill making strikes which interfere with interstate commerce crimes.

## ASSISTANT FOR PASTOR CALLED

PRESBYTERIAN CHURCH ADDS  
REV. LOUIS TINNING AS AID  
TO REV. EDMONDS

## WELL KNOWN HERE

FORMERLY IN CHARGE CHURCH  
AT WHITTIER; NOW WITH  
ONE IN HOLLYWOOD

At a joint meeting of the elders and deacons of the Glendale Presbyterian church, a unanimous call was extended to the Rev. Louis Tinning, now pastor of the Sunset Hills Presbyterian church, Hollywood, to become assistant to the Rev. W. E. Edmonds. It is hoped that the call may become effective not later than February 1 of next year.

The work of the local church has had a remarkable growth during the past few years and, with new members coming in every Sabbath and the new building enterprise now being carried on, it is deemed necessary to make certain changes which will increase the efficiency of the entire congregation.

In addition to certain ministerial duties, Rev. Tinning will act in the capacity of financial secretary, with special reference not only to current budget, but also subscriptions to the new building fund.

Former Pastor at Whittier  
Mr. Tinning is a clever, wide-awake young man in reference to detail, and because of this has been selected as one of the permanent clerks of Los Angeles Presbytery and has for several years served in this capacity with great satisfaction. He is also vice-president of the Los Angeles Presbyterian ministers' association.

Before coming to Sunset Hills, Rev. Tinning was pastor of the United Presbyterian church of Whittier, California. In each of these pastorates he has served most acceptably, and leaves the present field only with the feeling that Glendale will offer a larger opportunity not only at present but in the future.

Personal Friend of Pastor  
Rev. Tinning has been a personal friend of Rev. Edmonds for several years and they are both looking forward to team work for the upbuilding of the local church, and the community at large.

Mr. and Mrs. Tinning, with their son, who will enter the intermediate school, will be welcome as new residents of Glendale. Mrs. Tinning is an expert Sunday school worker, and will find a large place for her varied talents.

The date for a special reception in their honor will be announced in the near future.

## Application For Zone For Motion Pictures Denied By Committee

At their regular meeting in the city hall yesterday afternoon the zoning committee passed a motion that it be recommended to the city council that they deny the application of J. B. Treadwell for the establishment of a motion picture zone near Glendale avenue and San Fernando road, in the vicinity of Forest Lawn cemetery, and that motion picture zone recommended by the committee at a former meeting be adhered to. The zone as previously recommended is on the east side in the section east of Adams street and 150 feet south of Windsor road to 100 feet west of Hilda drive and southerly to the city limits.

A motion was passed that the committee recommend that the district extending east from Glendale avenue 100 feet north of Wilson to 100 feet east of Sycamore Canyon road, south to 100 feet south of Harvard west 100 feet south of Harvard to Glendale avenue be set aside as an apartment house district. No action has been taken as yet by the committee concerning an apartment house zone in the resident district; the district above described is also zoned as a business district.

At a meeting held in the city hall a week ago Wednesday, the Verdugo Woodlands association passed a motion recommending that Verdugo Woodlands be set apart as a strictly residence district, excepting one block on the west side of Canada boulevard, which may be used as a business district.

## Weather Forecast

LOS ANGELES, Dec. 16.—The official weather forecast: Probably rain tonight and Friday.

## PERSONALS

Mr. and Mrs. John A. Logan have moved into the home they purchased at 122 East Park avenue.

Mr. and Mrs. Willard Louis, 1437 Valley View road, will spend the Christmas holidays with relatives in San Francisco.

Mr. and Mrs. M. J. Nolen of 410 Stocker street have sold their home to Mr. and Mrs. C. J. Lowe and are moving to Eagle Rock.

Mrs. M. J. Brennan of 519 North Central avenue attended a recital Wednesday afternoon at Ramona Convent, in which her daughter, Margaret Mary, took part.

Miss Anabel McClellan will be home from Mills college Saturday to spend the Christmas holidays with her parents, Mr. and Mrs. J. B. McClellan, 126 North Central avenue.

Mrs. J. B. Lahr will arrive Saturday from New York City to spend the Christmas holidays with her father, Sidney B. Dixon, and brother, Fred S. Dixon, of 324 South Verdugo road.

Mrs. R. P. Smith of Lansing, Michigan, who is spending the winter in Glendale, is entertaining her nephew, Fay Tinker, and Don Beasley of Michigan. Mrs. Smith resides at 1243 South Boynton street.

Mr. and Mrs. Geo. A. Montgomery of 1700 Kenneth road will have as their Christmas guests, Mrs. Montgomery's sister, Mrs. John Armitage, and son, Trenholme Armitage, who arrive this evening from Montreal, Canada.

Mrs. Mabel Tripp and daughter, Ruth Twomey, and son, Evan Twomey, of Mojave, are visiting Mr. and Mrs. M. S. Kuehny, 268 West Doran street. Ruth and Evan Twomey were students at the high school last year.

Mrs. Nanno Woods and her daughters, Misses Dorothy and Kathleen, of 122 West Milford street, will entertain a party of one hundred and fifty guests, Burbank pupils and other friends, in Horne's hall, Burbank, on Saturday afternoon from 2 to 4.

James H. Rae, brother of Mrs. H. M. Miller, 202 East Elk avenue, has received word from his wife that she will arrive in Glendale Saturday. Mr. and Mrs. Rae will make their home with Judge Miller and wife until they can find a location.

Mr. and Mrs. Frank H. Olmstead, 1431 North Pacific avenue, will entertain their son and daughter-in-law, Mr. and Mrs. Harry Olmstead, and family of Phoenix, Arizona, and niece, Miss Cordelia Olmstead, who is a teacher at Silver Bell, Arizona, over the Christmas holidays.

Mr. and Mrs. Frank Booth of 318 East Broadway had as their Sunday guest Mrs. A. D. Curtis of Van Nuys, who has been visiting for six weeks in Seattle, Washington. Mrs. Curtis says there is nothing like southern California. It rained all the time she was in Seattle.

Misses Dorothy and Kathleen Woods, of 122 West Milford, were enthusiastically received by a large audience at the Little Theatre in Los Angeles on Tuesday evening, when they gave the Russian dance whose performance at the entertainment for Thornycroft boys last week elicited such great enthusiasm.

Rev. Clifford A. Cole, pastor of the Christian church, has received a telegram containing the sad news that Archibald McLean, for fifty years in mission work, died yesterday at St. Louis as the result of an operation. He was about 75 years old and was one of the best known workers in the Christian church organization.

Mr. and Mrs. John Everson, 611 North Central avenue, have as their house guests Dr. F. M. Baker and two daughters, Lucille and Louise, of Alma, Nebraska. Miss Lucille is a pupil of the Pearl Keller school of dramatics and dancing. Miss Louise is attending the high school. After the holidays Dr. Baker will take an apartment and remain in Glendale for the winter.

Mrs. Mary Marek, aged 59 years, passed away yesterday at her home, 1218 South Maryland avenue. She was a native of Austria. She is survived by two sons, Andrew Marek and George A. Marek, both of Glendale. Funeral services will be held from the Holy Family Catholic church Monday morning, December 20, at 9 o'clock, the L. G. Scovern Undertaking company in charge.

Pearl G. Curran, a graduate of the Royal Conservatory of Music, Leipzig, Germany, and who has traveled extensively in Europe, is now a resident of Glendale and she visited this office last evening to hand in her check for \$5 for the float fund. She stated that she has seen a number of flower shows and parades and realizes the importance to Glendale to have a suitable display in the Pasadena tournament.

## XMAS BAZAAR

Sale of fancy articles, bags, etc. All kinds of small gifts suitable for Christmas. 414 East Wilson.

Maintaining that the mayor and councilmen were not progressive and that sidewalks and lighting facilities were in need of repair, the women of Yoncalla, Oregon, elected an entire feminist administration at a recent municipal election.

## Life Insurance Is a Friend in Need

When grim Death enters the door and takes away the breadwinner, life insurance steps in and pays off the mortgage on the home, protects your estate from depreciation by forced sale, and provides food, shelter, clothing and education.

Genuine sympathy is always given in generous measure to those in trouble, but sympathy will not pay rent, nor buy food. From every standpoint, life insurance for those dependent upon us for support is the wisest and best thing that can be done for them.

Are your loved ones fully protected from want and hardship by life insurance, if left to face life's battles alone?

Telephone and I will call.

**Henry H. Bevis**

(17 yrs. with Met. Life Ins. Co. N. Y.)

or 470 Riverdale Drive, Glen. 276-M

## New Music House

A new business concern in Glendale is the Kohler & Chase Music company, which is located at 118 East Broadway.

This firm is a factory agency, selling pianos, phonographs, violins, saxophones, guitars and other musical instruments direct from the factory to the home, on the small payment plan.

The Burnham phonograph, for which this firm has the agency, may be bought on a small initial payment, the balance payable in small weekly payments. Any other musical instrument, large or small, will be sold on the same plan.

Instruments selected now for Christmas gifts will be held for delivery the day before Christmas.

## BEST IN NAVY

PACIFIC FLEET SETS RECORD FOR 1920, ACCORDING TO FIGURES COMPILED

Incomplete figures up to date seem to point to the Pacific fleet as the 1820 champions of the American navy.

Captain Robert Morris of Vallejo has just received the figures which seem to show a remarkable victory for the Pacific fleet over the Atlantic fleet. The figures shown in the short range target practice of the two fleets show a score of 55,932 to 44,009.

The best records indicated were made by the New York, 72,838; the Arkansas, 68,440; the Wyoming, 67,622. The Florida tails this list with 19,995.

Commenting on the fine showing made by the Pacific gunners, Captain Morris said:

"I think it's the climate. We have more favorable days out here—days when we can prepare and practice when we are feeling fit. The final scores can't possible overcome our lead." 1920 will be another "Pacific fleet wins."

To safeguard the nation's bread supply up to next midsummer it will be necessary for Germany to import 1,600,000 tons of wheat, rye, corn and barley.

During the rush season California farmers work their tractors 24 hours a day, operating three shifts of eight hours. Tractors have been used in California for more than 15 years.

## BAZAAR SUCCESS

CHURCH OF THE HOLY FAMILY  
CLOSES AFFAIR; SUM OVER  
\$2500 IS OBTAINED

Success even beyond their fondest dreams crowned the efforts of the ladies of the Church of the Holy Family, who last evening closed their three-day Christmas sale.

The net proceeds of the bazaar will amount to a sum between \$2,500 and \$3,000, reports the chairman of arrangements, Mrs. J. W. Lawson. This is a most gratifying result of the hard work of the various committees and, indeed, of the people of the parish as a whole, all of whom did their part to make the bazaar a success.

Everybody connected with the affair is tired today, but happy. Those who have also a personal reason for happiness, in addition to their satisfaction in the substantial sum raised for the building of the new church, are the following lucky winners of prizes: J. W. Shurley, of 127 North Orange, who won the diamond ring; Reed Heustis, 823 North Brand boulevard, the lucky winner of the wrist watch (which saves him the expense of a perfectly good Christmas present for Mrs. Heustis); Mrs. James Mullen, of East Harvard, winner of the tricotie embroidered dress; Mrs. Bayard, 206 South Orange, to whose lot fell the beautiful embroidered sheet and pillow slips; C. W. Mahaffie, 106 East Wilson, who won the Hardinger center piece; John Schick, 321 Maple, who won the twenty-two pound turkey; Mrs. M. Gannon, 318 West Colorado, who won the table runner which she had donated, and who generously gave it back again; Mrs. H. Davenport, 1223 South Glendale, whose luck brought her a fine center piece, and E. Dellenback, 512 South Glendale, who won an embroidered dress.

The large doll dressed in yellow was won by some one whose address is 352 Patterson street, and the burro fell to the lot of Dr. Berry.

Socially and financially the bazaar was a brilliant success and capable Mrs. Lawson and her efficient staff of co-workers may well feel satisfied with the results attained.

## MUSICAL PROGRAM

HIGH SCHOOL'S GLEE CLUB ENTERTAINS THORNYCROFT BOYS WITH MUSIC

The Glee club of Glendale union high entertained the boys at Thornycroft on Tuesday evening with a very fine musical program.

The opening and closing numbers were choruses by the boys' glee club. Other numbers were a piano solo by Miss Constance Branch, a song by Miss Marie Oliver, selections by the girls' glee club, songs by Joe Rhodes, and a dramatic reading by Miss Mona C. Gardiner, dramatic teacher in the high school. Mrs. Gibson, of the high school, was the piano accompanist for the concert.

Home-made candies, many boxes of them were the surprise the young ladies of the girls' glee club brought to the soldier boys.

The boys at Thornycroft have appointed an entertainment committee whose members are Harry Amend, chairman; Frederick Allan, secretary; Roy Haworth and Edward Lambert.

## CITY IS FLAYED

SHOW HOUSES ARE CROWDED AND CHURCHES NEGLECTED SAYS THIS PASTOR

COLUMBUS, Ohio—"A modern city is a new edition of paganism."

This characterization was made by Rev. John F. Grimes, local Methodist Episcopal clergyman, sermonizing on "The World Confusion in the Present Hour."

"There is no Sabbath," he continued.

"The show houses are crowded and the churches neglected."

"Commercialism has crowded the churches to the suburbs and the ranting agitator raves from a soap box on the corner where the church stood."

"The immigrant of today comes only to capitalize for himself whatever America has to offer and has no sympathy for our laws and our institutions."

## REVERE'S BELL PRESERVED

In the belfry of King's chapel, built when Boston was in its infancy, still hangs a bell which was cast by Paul Revere. It was his 161st bell. Besides being a bell caster, Revere was also an engraver, a goldsmith and a dentist. Rising above the modest houses in the Italian district on Hull street is the old North church, from which Revere received his signal previous to his famous midnight ride.

Christ church, the Second Episcopal church of Boston, is situated in the north end, and is an offshoot of King's chapel. Its spire, designed and built in 1723, has served as a landmark to guide ships into the harbor.

In 1804 this spire was blown down by a great gale, and was shortened by sixteen feet. The chime of bells, now silent, which hangs in the tower, was made in 1774, in the foundry of Abel Ruddall, of Gloucester, England. Each bell has engraved upon it an inscription denoting its history. The bells were supposed to possess the power to dispel evil spirits.

## MUTUAL BENEFIT

READING CIRCLE HAS SESSION AT LIBRARY AND SEVERAL FINE REVIEWS GIVEN

Notwithstanding the rush of Christmas work, the meetings of the Mutual Benefit Reading circle held each Wednesday at the public library are well attended.

Several splendid reviews have been given recently before the circle. Mrs. Lydia Kulp reviewed an article by Gertrude M. Shelby, entitled, "Let Us Go Back to the Old Town Meeting"—a plea for mutual helpfulness in the community.

Mrs. Mae Rosenberg reviewed an article in a November magazine, "What Do We Mean by 'Nice'?" in which due credit for the achievements and accomplishments of the woman of today was insisted upon.

It was announced at the last meeting that a new "Circle" baby had arrived, a little daughter born to Mrs. Ivan Robinson, member of the Circle. The Christmas story hour will be held in the children's room at the library on the afternoon of December 24, at 3 o'clock.

Mrs. H. W. Henry finished the book on "Home Efficiency" at yesterday's meeting, and began the new book chosen for study by the Circle, "Essentials of Character," by Edward Sisson, a work which gives promise of great interest.

There will be no meetings of the Circle during the Christmas holidays. The next session will be held on January 5.

## FIND NEW WAY

JAPANESE DISCOVER METHOD

TO MAKE IRON THAT IS INTERESTING SCIENTISTS

TOKIO, Japan—A method whereby iron may be smelted from volcanic iron oxide sand, heretofore regarded as wholly refractory, has been reported by scientific experimenters working for the war department. While the discovery cannot be employed as yet commercially, the cost of the iron so obtained being too high to compete with iron smelted from ore, the value of the process to Japan from a military standpoint is said to be great, inasmuch as it places this country in an independent position so far as its supply of steel for military and naval uses is concerned. Japan, like every other volcanic country, is rich in deposits of iron oxides.

## MOIE THEATERS IN RIO.

It is at the cinema theatres that the Cariocas (citizens of Rio de Janeiro) know real comfort; for, unlike their moving-picture houses, those in Rio have spacious waiting-rooms, where you sit, listening to excellent music, until the hour for the first reel comes around. The pioneer house of the kind inaugurated this custom, and now the people refuse to stand outside waiting for the even hour to arrive or to enter after the film has started. With so much profitable space taken from the auditorium, the movie-makers in Rio are not as great money-makers as with us. The American favorites are popular, quite outclassing Italian and Brazilian film stars.

## HARRIMAN'S SON.

W. A. Harriman, son of the late railway king, is now 28 years old, and people in a position to know the facts declare that he is showing the same ability and energy in the shipping business which made his father a formidable figure in the railway world. This young captain of industry is a most engaging personality. He is half an inch over six feet tall, well proportioned, slender and rather diffident in manner, except in business transactions, when he is as direct, as keen and confident in his own judgment as was his dynamic father. Save for the expression of the steady dark eyes under heavy straight brows, there is nothing about the tall wizard of international commerce reminiscent of the little wizard of Wall street.

William B. Thompson, president of the Louisiana division of the American Cotton Association, has advised cotton producers to leave all low grades in the field to be eaten by cattle or plowed under and to take steps "to make it impossible during the coming season to produce more than one-half the present crop."

American films, which have been the favorite in England for the past five years, are suffering a slump due to the fact that certain producing concerns have been sending over films of an inferior character.

SOLVE RIDDLE

**DELINQUENT TAX PUZZLE NOW**  
**CLEARED AND DUBUQUE, IA.,**  
**SEEMS SATISFIED**

DUBUQUE, Iowa.—The delinquent  
tax riddles, which has puzzled many  
an otherwise efficient city adminis-  
tration, has been solved by the "city  
dads" of Dubuque.

Early in 1920 Dubuque voted for  
the city manager plan of government.  
O. E. Carr, who had acted in a like  
capacity at Niagara Falls, N. Y., and  
Springfield, Ohio, was appointed city  
manager at an annual salary of \$8,-  
000. Under the old system the may-  
or had been paid \$1500 a year, and  
each of seven councilmen received  
\$300 annually. In comparison, Carr's  
salary seemed ridiculously high, but  
the citizenry decided to take a chance  
and he was told to "go to it."

Among the vexing problems which  
faced the city manager was the re-  
habilitation of a sadly depleted city  
treasury. The municipal debt had  
reached gigantic proportions, and  
preceding administrations, while ef-  
ficient to a certain extent, had been  
unable to inaugurate businesslike  
methods to place the city on a firm  
financial footing.

**Plugged the Revenue Leaks**  
Mr. Carr turned his attention to  
this matter without delay. One by  
one he plugged the smaller leaks  
through which the municipal funds  
had been dribbling. The delinquent  
tax situation, however, proved to be  
the chief contributor to the city's  
poor financial condition. Various  
methods had been tried in the past  
to force the prompt payment of taxes,  
but all had failed.

The city manager appealed to the  
delinquents to step forward and set-  
tle up. A few did so, but the ma-  
jority ignored the call.

Carr then tried reproaches. "Per-  
sons who do not pay their taxes im-  
pose an unjust burden on those who  
do," he told the shirkers. The ex-  
pected stampede to the city treas-  
urer's office failed to materialize.

"We will sell the delinquent prop-  
erty for taxes," Carr told the coun-  
cilmembers.

"That's been tried before," was  
the answer. "Who's going to buy  
it?"

"The citizens of Dubuque," de-  
clared the city manager.

**Organized Investment Company**

He immediately began organizing the  
Citizens' Investment company.

The capital stock was fixed at \$300,-  
000. No individual was permitted to  
purchase more than \$3000 worth of  
stock. This rule was fixed to make  
sure that the corporation would re-  
main a municipal enterprise rather  
than permit it to be controlled by a  
small group. The chamber of com-  
merce, Kiwanis club and Rotary club  
pledged their active support, and  
public meetings were held at which  
the purpose of the corporation was  
explained and citizens were invited  
to purchase stock, on the ground  
that it was a splendid investment and  
also an expression of loyalty to the  
municipality. The success of the  
venture was quickly assured. Lab-  
orers, factory workers, clerks and  
housewives are joint stockholders  
with big business men.

When property is offered for sale  
for taxes, the corporation buys it in,  
pays the amount due to the city and  
the property remains in the title of  
the corporation unless the original  
owner decides to repurchase it with-  
in the two-year limit prescribed by  
law. The corporation collects all  
revenue from the property and pays  
dividends to the stockholders.

While the corporation was in its  
preliminary stages it was given much  
publicity by the press, and there was  
a noticeable increase in the collection  
of back taxes.

Amazing results were forthcoming,  
however, when the corporation  
actually began functioning. While  
it has been in existence only six  
weeks, more than \$200,000, or nearly  
one-half of the total delinquent  
taxes had been collected, two-thirds  
of this amount being paid in the first  
month.

The innovation has attracted wide  
spread attention and requests for de-  
tailed information are received daily  
from chambers of commerce and mu-  
nicipal officials in all parts of the  
country.

**NOVEL FEATURE OF HOTEL**

A novel feature of the new hotel  
for women, which opened in Phila-  
delphia recently, is a mending and  
sewing shop where all the little odd  
jobs necessary to keeping a business  
woman's wardrobe in order are done  
at cost. Sewing on fresh collars and  
cuffs, replacing buttons and hooks,  
dyeing chiffon waists, darning stock-  
ings and doing the many little things  
that business women haven't time  
for is taken care of by the shop  
directors, who are members of a  
volunteer committee. Incidentally  
this service will give part-time work  
to many women who wish some work  
to do but can not give eight hours  
a day.

"If the coffee is good everything is

FLOAT DESIGNS

**ALL SUGGESTIONS FOR CITY**  
**DISPLAY MUST BE IN BY**  
**SATURDAY, DEC. 18**

Those intending to submit designs  
for a float to represent the city of  
Glendale in the Tournament of Roses  
parade in Pasadena on New Year's  
day are asked by the committee in  
charge to remember that the contest  
closes at 5 p. m. on Saturday, Decem-  
ber 18.

All designs entered in the \$10  
prize contest must be left with Miss  
Eva Daniels, 324 West Colorado  
street, on or before that hour and  
date. Miss Daniels' telephone num-  
ber is Glendale 911-M and she will  
give further information over the tel-  
ephone to those interested in submit-  
ting designs.

Attention is again called to the  
fact that prospective contestants  
must understand that no float may  
be over fifteen feet in height. That  
is the limit. There must be no arti-  
ficial flowers or bunting.

This is to be strictly a floral float.  
No advertising, such as painted signs,  
will be permitted, although the word  
Glendale, or any civic statement, may  
be worked out in flowers that is not  
an advertising proposition.

The originality of the design will  
be the first point. Adaptability to  
Glendale, that is the appropriateness,  
and practicability of working out the  
design at this time of year will all  
be taken into consideration when the  
committee makes their decision.

MAKES CHARGES

**NAVAJO INDIANS ARE DYING**  
**FAST AS RESULT OF LACK**  
**OF CARE, IS CLAIM**

Forty-eight per cent of the Indian  
deaths on the Navajo reservation are  
due to tuberculosis and twenty-five  
per cent of the Indians suffer from  
trachoma, which leads to blindness.

On this foundation Frederick L.  
Hoffman, vice-president and statisti-  
cian of the Prudential Life Insur-  
ance company of Newark, N. J., has  
framed a pointed indictment of the  
United States Indian medical service.  
He has appealed to the American  
Medical association to lead a cam-  
paign for the transfer of the Indian  
medical service to the public health  
service.

Mr. Hoffman's report of health  
conditions—or, more properly, the  
lack of health conditions—among the  
American natives on the Indian res-  
ervations is one of the most appalling  
arraignments of governmental  
inefficiency ever made. After visit-  
ing a number of reservations in con-  
tinuation of former investigations,  
including the Zuñi and Navajo res-  
ervations of Arizona and certain pub-  
lics of New Mexico, he reported to  
the American Medical association:

"In my judgment the medical sit-  
uation is as deplorable as it is dis-  
graceful and I am convinced that if  
the facts were known and thoroughly  
understood the organized medical  
profession, through the American  
Medical association, would bring  
pressure to bear on the government  
to bring about the required drastic  
and far-reaching reforms.

**One of Indifference?**

"The matter is apparently one of  
indifference to the commissioner of  
Indian affairs. We are under treaty  
or humane obligations to the Indian  
tribes under the control of the Indian  
office to provide adequate medical  
assistance; but, broadly speaking, in  
the case of at least all of the larger  
reservations, such assistance consists  
of a single physician with possibly a  
small hospital insufficient to provide  
proper care or equipped with an in-  
sufficient staff of nurses and other  
help required for the needs of the  
patients.

"There is no adequate dental ser-  
vice, the total number of dentists be-  
ing less than ten, who travel from  
place to place over an area of vast  
extent. There is no adequate provi-  
sion for eye specialists, although the  
Indian population is terribly afflicted  
with trachoma, introduced from the  
outside largely because of negligence  
and indifference to the risk of in-  
fection.

"In serial table No. 6 of the hear-  
ings of the committee of Indian af-  
fairs is a table which may well bring  
the blush of shame to a government  
under obligation to provide a proper  
Indian medical service and in duty  
bound to afford those who are ren-  
dering such service a means of main-  
taining a proper standard of life."

**Supervisor Gets but \$3,000 Yearly**  
The report charges that the chief  
medical supervisor receives only  
\$3,000 a year—less than is paid to  
veterinary surgeons in the govern-  
ment employ, less than is paid the  
chief forester of the Indian service,  
less than is paid the chief irrigation  
engineer.

Life, particularly Indian life, is  
one of the cheapest commodities on  
the world market these days, the re-  
port declares.

Continuing his indictment of the  
government for its neglect of the In-  
dians, Mr. Hoffman declares "there  
is, broadly speaking, no Indian  
health service and very little is done  
to prevent the occurrence of disease,  
though some progress has been made  
in the control of disease after its oc-  
currence.

"It has been suggested that the  
Indian medical service should be  
transferred to the public health ser-  
vice. In my judgment such a trans-  
fer is called for by the highest con-  
sideration of Indian policy."

### COST TO GROWERS

**INCREASED FREIGHT RATE IS**  
**HEAVY BURDEN PLACED ON**  
**INDUSTRY IN STATE**

SACRAMENTO, Calif.—Increased  
freight rates established since the  
prewar period cost the fruit growers  
of California \$21,000,000 annually,  
according to officials of the state de-  
partment of agriculture.

It is declared this burden laid on  
the fruit industry has been a hard  
blow and has seriously crippled it.  
The prewar rate for deciduous fruit  
shipments was \$1.15 a hundred. Fig-  
uring on the basis of a minimum load  
of 26,000 pounds to the car, and in-  
cluding the refrigeration costs, the  
freight on a carload of fruit in those  
days was about \$374.

Then came the war advance of 25  
per cent, making the rate \$1.44, and  
the total cost, with refrigeration, of  
\$464.40 a car, an excess of \$91.40  
over the old rate. The increased  
cost of shipping a car of oranges is  
approximately \$281.82.

This, it is estimated, meant an in-  
creased revenue to the railroads in  
1918. Estimating that 80 per cent  
of California deciduous fruit was  
sold in eastern markets, the fruit  
growers of California paid \$3,200,-  
000 of this increased revenue.

To demonstrate a means of ending  
an epidemic of pay roll robberies and  
to prove that modern business may  
be conducted efficiently without the  
use of small change, a Rochester  
company is going to conduct its af-  
fairs entirely without the use of  
money, using checks, trade accept-  
ances and travel checks to make pay-  
ments of every kind, including the  
pay roll.

Major General Sir Charles Towns-  
hend, defender of Kut-el-Amara, has  
been elected to the House of Com-  
mons.

A coal mine owned by South Da-  
kota ships two hundred tons of coal  
daily. The coal is furnished to the  
state institutions but individuals may

### CLAIM NEGLECT

**VETERANS OF WORLD WAR NOT**  
**BEING TREATED RIGHT, IS**  
**CHARGE BEING MADE**

WASHINGTON — The United  
States government is neglecting dis-  
abled veterans of the world war, Col.  
T. W. Galbraith, Jr., national com-  
mander of the American Legion,  
charged here. Responsible govern-  
ment officials did not deny the  
charge.

Galbraith's accusation was made  
in connection with the conference of  
the legion hospitalization committee,  
which at the end of a day's work had  
prepared a tentative bill to be sub-  
mitted to congress whereby all fed-  
eral activities connected with dis-  
charged disabled veterans of the war  
will be co-ordinated.

The legion hopes to cut the red  
tape which now surrounds the dis-  
abled soldier. It will recommend to  
congress a plan whereby the needy  
veteran will get action, instead of  
letters passing responsibilities to  
some other government bureau.

**Heads Offer No Objection**

Heads of government bureaus con-  
nected with rehabilitation attended  
the conference. They offered no ob-  
jections to the proposal, realizing  
that it would have been useless to  
combat the storm of indignation  
among world war veterans at the  
shabby treatment their unfortunate  
comrades are receiving.

That the legion intends to bring to  
bear all of its influence to have con-  
gress adopt the proposed legislation  
was made clear. The co-ordination  
bill will be given precedence over  
all other American legion recommen-  
dations.

"The legion is going to make the  
people of this country realize that the  
men who offered their lives, gave of  
themselves and their blood for the  
security and welfare of their nation,  
are returned heroes to whom they  
owe a big debt of gratitude," Col-  
onel Galbraith said. "The condition  
of these disabled men is frightful,  
and we propose to take immediate  
steps to see that they are properly  
cared for by their debtors—the peo-  
ple of the United States.

**No Bricks Laid nor Bed Set Up**

"The government has not laid a  
brick nor set up a bed for the care  
of the 30,000 disabled men, although  
the armistice was signed two years  
ago.

"Conditions in the temporary,  
makeshift hospitals provided by the  
public health service are simply  
frightful. The temporary hospital at  
Marketton, Pa., is a disgrace to the  
nation and should be abandoned at  
once as unfit for a dog to live in.

"Ten thousand disabled men are  
quartered in cellars, poorhouses, and  
insane asylums. Thousands of men  
are breaking down mentally and phys-  
ically as a result of the hardships  
they endured in the service of their  
country, and they are entitled to the  
best care that this wealthy nation  
can afford."

Col. Cholomeley Jones, head of  
the war risk insurance bureau, and  
Uell Lampkin of the federal board  
of vocational education were present  
but they carefully avoided making  
any protest at Galbraith's complaint.

**Surgeon General Acquiesces**

Dr. C. W. Lavinder, an assistant  
surgeon general in charge of hospi-  
tals for the public health service, ad-  
mitted that Galbraith's charge is true,  
but he blamed congress, insisting  
that economical legislators are re-

### GET SUBSTITUTE

**SUBSTITUTION FOR RADIIUM CAN**  
**BE PRODUCED SAY THESE**  
**EXPERIMENTORS**

COLUMBUS, Mo.—A perfect sub-  
stitute for radium can be produced  
through a chemical process, which  
purifies mesothorium, according to  
G. F. Breckenridge and Dr. Herman  
Schlundt of the University of Mis-  
souri, who have been conducting ex-  
periments in conjunction with Dr. R.  
B. Moore of the United States bu-  
reau of mines.

Mesothorium is a by-product in  
the manufacture of mantles for gas  
lamps, and is found in the monazite  
ore of Brazil.

The radium substitute can be used  
effectively as a radium substitute for  
medical purposes, it is said.

**FORKS FIRST USED IN 1574**

It is hard to believe the sensation  
produced when forks first came into  
use. It was in 1574, at a dinner  
given by Henry III. of France. Here  
is an account by a royal lady guest,  
the Ladies' Home Journal recalls:  
"The guests never touched the meat  
with their fingers, but with forks,  
which they carried to their mouths,  
bending their necks and bodies over  
their plates.

There were several salads. These  
they ate with forks, for it is not  
considered proper to touch the food with  
the fingers. However difficult it  
may be to manage it, it is thought  
better to put the little instrument in  
the mouth than the fingers.

"Then artichokes, asparagus, peas  
and beans were brought. It was a  
pleasure to watch them try to eat  
those with their forks, for some, who  
were less adroit than the others,  
dropped as many on their plates and  
on the way to the mouth as they  
were able to get to their mouths.  
"Afterward a great silver basin  
and a pitcher of water were brought  
and the guests washed their hands,  
though it seems as if there would  
not be much scent of meat and  
grease on them, for they had touch-  
ed their food only with those forked  
instruments."

Dealers of power farming machin-  
ery report a steadily increasing num-  
ber of farms on which tractors and  
trucks have completely displaced the  
horse.

It is hard for an ordinary preacher  
to be a prophet and a promoter; but  
the board secretaries insist upon it.

sponsible.  
"The hospital service is not what  
it ought to be," Dr. Lavinder said.  
"We are short of funds and are mak-  
ing our money go as far as possible,  
but it does not go far enough.

"We have established a temporary  
hospital service, but it does not suf-  
fice. We know that a great many  
of the hospitals are unsatisfactory,  
but it is the best we can do at the  
present time.

"We asked congress last year for  
sufficient funds, but congress turned  
us down. Congress thought that the  
hospitals in the then existing aban-  
doned army cantonments, the regu-  
larly established army post hospitals  
and the temporary hospitals con-  
structed during the war provided suf-  
ficient beds. It has not been enough.  
This year we are asking for \$35,000,-  
000 to provide 10,000 additional  
beds in permanent hospitals."

**MAKES GIFT TO TOWN.**  
Arthur C. Newby of Indianapolis,  
only legal heir to the estate of Mil-  
ton Newby, his uncle, who died re-  
cently, and also heir to the estate  
of William Newby, another uncle,  
who died four years ago, has given  
to the town of Mooresville all the  
personal property of the two men,  
valued at \$7,000, and a farm just  
west of town on the Greencastle  
road, consisting of 140 acres. A con-  
servative estimate of the value of the  
gift is \$35,000.

It is Mr. Newby's idea that the  
property shall be so managed and  
the money so expended that a suit-  
able memorial can be erected to per-  
petuate the memory of his uncles,  
whose entire lives were spent in this  
community.

### To Advertisers

The Glendale Evening News  
is now equipped to do stereo-  
typing. If manufacturers are  
sending you mats, we can make  
stereotype plates from them to  
use in your advertisements  
without extra charge to you.  
We have subscribed to a  
monthly mat service which is  
free to our patrons also, and  
many have taken advantage of  
it this week to dress up their  
ads in holiday attire.

## DISPOSAL PLAN

PETITION TO BE PREPARED TO ASK TRUSTEES TO ORDER NECESSARY WORK

(Continued from Page 1) septic tanks. It was explained that such a disposal system would be but temporary; that it would last, however, until Glendale either installed a universal system or made arrangements with the city of Los Angeles to care for the sewage. It was also stated that all but about twenty-five per cent of the cost of the system would be saved to the property owners when such permanent arrangements were made. The pipe lines placed for the temporary system would become a part of the permanent system; the cost of the septic tanks and large cesspools required would be lost when a permanent plan was put into effect, it was stated.

### Relief Is Needed at Once

Property owners in the district affected declared that relief from the present method of disposal of sewage was imperative; filling up and overflowing of cesspools was a source of almost constant trouble, it was declared. The ground in certain sections is thoroughly saturated with seepage from cesspools, it was asserted.

It is proposed, under the plan outlined last night, to lay permanent mains so that when a universal system is installed for the whole city, all that the property owners in the district outlined will lose is the cost of the septic tanks and large cesspools.

The plan as outlined is to place the mains in alleys and connect up the stores and other buildings and then, when a permanent system is finally obtained, the pipe lines may become a part of the new system.

### Los Angeles Proposes Bonds

City Manager Watson called the meeting to order and explained the reasons for the necessity of action. He then asked Mr. Olmsted to state his views.

Mr. Olmsted asserted that cesspools were a menace to the health of the community and that there was no further opportunity for placing more cesspools in the business section. He also stated that the city of Los Angeles is proposing a bond issue of \$12,000,000 to increase its sewage system and is also making the move in contemplation that it will embrace most of the San Fernando valley, including Glendale. The system, when completed, would care for about 3,000,000 population, he said. He further stated that, if the bonds carried, it would be about three years before the system was completed. Meanwhile, the situation in Glendale demands immediate action, he declared.

### Necessity, Says G. B. Woodberry

G. B. Woodberry said that installation of a sewage system in the business district is now a vital necessity. He further stated that he was opposed to any more cesspools being allowed anywhere in the city. He suggested that individual septic tanks, capable of caring for a family of six persons should be required throughout the city instead of cesspools. He declared such septic tanks could be installed for about double the cost of a cesspool and would last for years because of favorable soil conditions.

E. K. Daniels, W. W. McElroy and others spoke in favor of the installation of a system in the business district and, finally, Mr. Jones made the motion which carried unanimously.

During the meeting City Manager Watson said that J. A. Cole, T. A. Wright and others had informed him they favored the installation. Mr. Jones said he even favored a larger district to reach to California street. It was, however, decided to limit the district to the blocks described, it being explained that the district could be enlarged afterward if necessary.

Mr. Daniels suggested that it include the high school and the Elks' club, but no action was taken on this last night.

City Engineer Hill and Mr. Olmsted will, as the result of the meeting, prepare plans and estimates, also a petition to be circulated by interested property owners. It is probable the petition will be in circulation the week following Christmas.

It is stated that one unit in the proposed system is now about to be installed for the block between Brand and Maryland, south of Broadway, at the request of interested property owners and, it is proposed, this unit will become a part of the general system outlined for the business section.

No detailed plans or estimates were available for last night's meeting, it being explained that they could not be prepared until it was learned just what territory it was desired to cover.

### Verdugo Residents Take Action

During the discussion City Manager Watson announced that about fifty residents of the Verdugo section held a meeting recently and voted unanimously to install a system similar to that proposed for the business section of Glendale.

The residents of the Verdugo section have decided to install a main pipe line to which will be connected the various homes. The sewage will be taken into septic tanks and, it is expected, the system will answer satisfactorily until a universal system of disposal is obtained by Glendale—either by arrangement with Los Angeles, by annexation with Los Angeles, or by Glendale's voting bonds for its own system.

## EDITORIAL COMMENT

### BUSINESS IS BUSINESS

Now that the Russian reds have put to rout the last organized effort to overthrow the bolshevist rule, some of the nations have resumed the talk about opening trade relations with the government of Lenine and Trotsky, who have been represented by spokesmen of these same nations as unfit for the association of decent and honorable men.

Premier Lloyd George of Great Britain has been especially bitter in his denunciation of the soviet leaders, yet he is hinting that his government may soon open negotiations with the Russian bolsheviks for mutual profit. If morals ever entered into the matter, what has the defeat of General Wrangel to do with it?

One must get the idea that the fine phrases about protecting democracy from the contamination of radicalism, as it is expressed in soviet Russia, are to be placed in the discard when the opportunity of adding a few pounds sterling presents itself. There has been no change in the character of the leaders of the Russian reds, but the change is in the former enemies of the soviet system.

The state department of the United States has been outspoken in declaring that no confidence could be placed in the Russian leaders, but there is already talk that this country should get into line for some of the business which Great Britain and certain other countries seek. Get business, by all means, and let principles go by the board.

Perhaps the allies should have given recognition to the Russian soviet long ago, when the radicals were begging for something in the way of advantages. They are not begging for anything now, for they know that their successes against the anti-bolshevist elements of Russia have placed them in a position where the allies will eventually come to them of practically their own terms. Let democracy look out for itself; the biggest business on hand is to make a little extra money.

### WHY CRIME HAS INCREASED

An investigator of sociological conditions in American cities, observing that crime ran rampant to new high records in 1919, observes that "Human life was never as insecure in the United States as it is today. Our national apathy in this matter is an indictment of our alleged civilization." It is a pessimistic view. He blames "the press, which fails to draw useful conclusions from the facts presented; the church, which seems indifferent to the most flagrant violation of the laws of God, and the authorities, failing to obtain prompt convictions in a large number of murder cases."

Probably there is some blame to be attached to each of these for the prevailing high murder rate in the United States. But it is not clear that they are responsible for the sudden increase in crime in 1919, for the press and church and civil authorities are probably not more apathetic today than they have been for years. Indeed, there are evidences that they have been more alert in recent months than ordinarily.

The increase in homicide in 1919 is due to one cause, and one only. It is due to the cheapening of the value placed on human life by the great war. Irresponsible minds that comprehend that 10,000,000 soldiers were slain from 1914 to 1918 are not likely to attach much significance to adding one more to the loss. It is the price the world pays for setting men at each other's throats.

There are, however, obvious contributory causes to homicide under normal conditions that are within possibility of correction. The ease with which dangerous or weak persons can obtain a death-dealing weapon is an invitation to them to use those weapons. The power of the courts to frighten men into being good is strictly circumscribed.

It has been discovered that the way to prevent men from using opium is to put a ban on opium. The way to stop them from drinking to excess is to make it difficult, or impossible, for them to obtain liquor. Some day it will become clear that the way to stop murder is to make it difficult for men to obtain the means to kill.

### THE WEATHER

It may not be permissible under the rules of formal logic to say that rainy and gloomy days must have their uses or there would not be any such days. The logician would surely find something wrong with such an assertion. But then, life is not logical; and we may outwit the logician by assigning some uses to these dark and dismal days.

There is no end to the excellent uses which such days may serve. To the individual—and there are many such—who loves nothing better than to burrow down into the very depths of despondency, they afford glorious opportunity for this pastime. When the sky is overcast, when it seems as if the sun could never, never shine again, after a two or three day drizzle, our gloom dispenser ought to reach the very height of his happiness by finding himself in the utmost depths of his despondency. He may then rub his hands with glee while he greets his somewhere-the-sun-is-shining neighbor with the cheering greeting: "Wonderful day, isn't it, for dark deeds?"

And our Pollyannas, little ones and big ones; our Mark Tapleys and Mrs. Wiggs, and all the resolute crew of never-failing optimists: With what unbounded enthusiasm will they resolve on days like these "to be glad," and "to come out strong and be jolly." How they will make even the dreary mist feel ashamed of itself.

Those who are of a practical turn of mind will utilize days like these to catch up with their correspondence, writing furiously the while the drizzle envelops the world. Or they may address themselves to the long-postponed tasks of clipping recipes and what not from piles of accumulated magazines; or for the fifteenth time they may inventory and arrange the rummage in the attic. If their bent lies in this direction they may go over eight dozen canceled checks and an equal number of stubs in an effort to locate the \$38 discrepancy between what they think is their balance in the bank and what the bank clerk reports it to be. Delightful diversions for days of drizzle!

Here and there we may find an individual whose armor or philosophy has not yet been wet through by this aqueous atmosphere. In a reflective mood, not unmindful of the rules of formal logic, he may look from his office window out on a world of mist, and calling to mind the words of Abraham Lincoln, may remark: "For people who like this sort of weather, this is about the sort of weather they ought to like." Which would be puncture-proof logic.

The idea of letting well enough alone never occurs to some folks until they have mused it up.

## QUIT BUSINESS

MANY SMALL OIL COMPANIES FORCED TO SUSPEND IN TEXAS ACTIVITIES

AUSTIN, Tex.—As further evidence of the decline of the speculative era of the oil industry of Texas it is noted that more than 300 of the small companies have gone out of business during the last six months.

These corporations were formed during the period when excitement over the possibilities of gaining big and quick wealth from oil exploitations was at its height. In many instances, perhaps, the promoters hoped to profit chiefly through the sale of stock to credulous investors, and in this they succeeded to a remarkable degree as is shown by the thousands of disappointed stockholders scattered over the country. In other cases the companies were financed to the extent only of drilling one well and with the playing out of this well, if oil happened to be struck, the company was forced to quit business.

### Little Chance for "Small Fry"

The results of the Texas oil boom have demonstrated that the industry can be carried on most successfully by large financial interests and that the "small fry" investor has little chance of coming out whole in the end. It is the older and well established oil corporations that now practically control the production, transportation, refining and marketing of oil in Texas today. While it is true that a very few companies that began with comparatively small holdings two or three years ago are now classed among the larger concerns, there are thousands of other companies of which nothing is now heard.

For several months past there has been in progress a general merger of the smaller oil interests into the larger companies. This has tended to stabilize the industry very materially and has done much toward ridding it of the speculative features. Occasionally a small company may bring in a well of phenomenal flow that brings big profits to its stockholders. This has been true especially in the Breckenridge pool recently.

It may be said that wildcat operations over the state have been sadly disappointing to the enterprising, though visionary, men who have been searching for oil pools. While little is now heard of these wildcat wells, more than 500 of them have been drilled or are now being drilled in every county in the state. In some localities oil in small quantities has been found at shallow depth—just enough to lure the searcher for the hidden wealth into making further expenditures of time and money in the hope of finally realizing his expectations. No experienced oil operators venture to predict whether new and big pools will be found in Texas or not.

### Has Only Been Touched

It is reasonable to suppose, they say, that the potential oil wealth of the state has been only barely touched, but they do not know when and where new sources of the product may be found. These men point out that oil booms are epochal, and that it may be several years before some chance discovery of petroleum again excites the people into another frenzy of investment and exploitation. In the meanwhile the established producing areas will continue to be developed and probably widened.

The total settled production of all of the Texas fields, including light and heavy crude, is now close around 250,000 barrels a day, which is not very much below the record mark. These figures are the pipeline runs, and do not include the available oil from the wells in the Breckenridge pool, which are closed down on account of lack of pipeline facilities.

### Increase in Big Fields

It is expected that when the pipeline lines that are now being extended to Breckenridge are finished and relief given the operators there, the daily production of the north Texas field will rise above 250,000 barrels a day, as compared with the present production of 230,000 barrels a day.

In the heavy crude fields of the Gulf Coast region remarkable success has been had recently by the Texas Company, the Republic Production company, the Humble Oil & Refining company and several other of the larger concerns in obtaining large production. This is especially

## MARRIED OR NOT

RHINE OFFICERS WHO HAVE GERMAN BRIDES WORRIED BY BERLIN RULING

PARIS, France—Scores of French officers in the Rhineland are wondering whether they are really married as a result of a declaration from Berlin invalidating all marriages in German territory which were not performed before German priests or officials.

It seems that the charms of the flaxen-haired maidens along the Rhine proved too much for the hearts of French officers last year as they began donning horizon blue and escorting the gretchenes before commanding officers, who, under military law, have the right to perform marriage ceremonies.

The Inter-allied Rhineland commission then assumed full control of the occupied regions, but referred all requests for marriage to the German authorities, holding that the French commanders no longer were the authority of marital affairs.

### Prove Fairly Happy

Franco-German alliances thus far have proven fairly happy as not a single divorce has been applied for, but the devoted gretchenes, due to pressure from German relatives, are insisting that the ceremonies must be performed as Berlin dictates in order to insure the legitimacy of their offspring. In some cases the French officers have consented, but with numerous difficulties, their semi-wives frequently being insulted by German officials, who treated them as traitors of the fatherland.

Berlin does not approve of such unions as is shown by recent instructions to boche mayors to convince amorous maidens that they have nothing in common with the French conquering heroes along the Rhine.

true as to the Hull, West Columbia and Blue Ridge fields. The total daily pipeline runs of these Gulf Coast fields is now approximately 125,000 barrels a day.

## COIN RECORD

REMARKABLE SHOWING MADE IN UNITED STATES MINT IN LAST FISCAL YEAR

The United States mints established a record in coinage during the last fiscal year, according to the annual report of Director Ray Baker. A total of \$69,500,000 coins were executed, which Mr. Baker declares a record. The figures show an increase of 446 per cent in coinage over 1915, the last normal year.

Public demand for smaller coins, particularly pennies, is reflected in the report, which discloses more than 512,500,000 coins in the record output were 1-cent pieces.

Mr. Baker said an electric furnace of 1000 pounds capacity had been installed at the San Francisco mint.

Premier Lloyd George announces that Great Britain will begin to trade openly with Soviet Russia as soon as it is certain that Russia will carry out its agreement relative to returning British prisoners.

A new poison gas for war purposes in units small enough to be carried by every soldier is a new device of the Chemical Warfare Service. The new gas is so deadly that it was found necessary to strengthen the masks to make them effective.

NOTICE OF HEARING OF PETITION FOR PROBATE OF WILL IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF LOS ANGELES

In the matter of the estate of Richard M. Sippel, deceased. Notice is hereby given that the petition of Louis Sippel and Kasper C. Sippel for the probate of will of Richard M. Sippel, deceased, and for the issuance of letters testamentary thereon to Louis Sippel and Kasper C. Sippel, will be heard at 11 o'clock a. m. on the 23rd day of December, 1920, at the court room of department 2 of the Superior Court of the State of California, in and for the County of Los Angeles.

Dated December 3, 1920.  
L. E. LAMPTON, County Clerk.  
By H. H. DOYLE, Deputy.  
OWEN C. EMERY, Attorney for Petitioner.

## BERLIN LIVING

ONE-SIXTH OF CITY IS SAID  
TO BE LIVING WELL; REST  
UPON UNVARIED DIET

BERLIN, Germany—Food conditions in Berlin are good for about one-sixth of the population. The other five-sixths are subsisting on unvaried diet of bread, potatoes and cabbage.

An income of 19,000 marks is necessary for the support of the average family at present prices, according to official statistics, and less than 10 per cent of the Berlin bread winners receive that much.

Black bread—a mixture made of rye, potatoes and flour—costs 4½ marks for a loaf slightly less than a full metric pound. Potatoes and cabbage cost 50 pfennings a metric pound. For the well-to-do nearly all staples are available. The release of meat from government control brought to the butchers a plentiful supply. Pork retails at 23 marks, beef from 13 to 18 marks.

## RISK LIVES CARRYING MAILS

There are several postoffices in Switzerland at a height of 7000 or more feet and a mail box on the very summit of the Languard, from which four collections are made daily, is nearly 10,000 feet above the sea level. Near here some years ago three letter carriers were crushed to death by an avalanche. In an adjacent canton, in the summer of 1863, a postman fell into a crevasse while crossing a glacier, his two full bags on his back. All efforts to recover either the body or the mails were fruitless. But thirty-four years afterward, in 1897, the glacier cast forth its prey many miles lower down the valley, and the long-lost letters were delivered to as many of the addresses as could be traced.

Not infrequently, too, these Alpine postmen are attacked by the huge, fierce eagles that soar hungrily above the least frequented crags. Usually the men are able to beat off their feathered assailants, but not always.

In July one year a postman who carried the mails on foot between the villages of Sospello and Puget Théniers was fatally mauled by three such birds. Of two men who attempted to avenge his death one was killed outright and another bird so severely injured that his life was for a long time in danger.

The state of Maryland has appointed a director of farm products upon whom will fall the responsibility of maintaining and operating motor lines on state highways and from terminals, docks and depots for the collection of farm products.

We owe something to the crowded graveyards of Europe. Now is a good time to think of that debt.

## PURCHASE POLES

PART OF BURBANK'S SYSTEM IS  
OBTAINED FOR USE BY  
MUNICIPALITY

The city of Glendale, through the board of trustees, has decided to purchase from the city of Burbank the pole lines located in the Grand View district. The cost will be \$1,290.96. The purchase is recommended by City Manager Watson.

"I submitted at the last meeting of the trustees an inventory of pole lines, transformers and other electrical equipment owned by the city of Burbank in the Grand View district," said City Manager Watson. "This consists of an electrical distribution line extending from Grand View avenue to the city limits of Glendale on the east side of San Fernando Road and a distribution line extending along the property line at the rear of the lots between Vine avenue and Winchester avenue between San Fernando Road and Fourth street. These lines and equipment are in good condition and properly placed for serving this district with electric light and power. As compared with present prices and the cost of installing this equipment the prices quoted are reasonable."

The city manager recommended the purchase for the sum named and the board of trustees authorized it be made, the Burbank officials having already agreed.

## MORE MUSICAL DRUMS

It is a well-known fact that percussion instruments as a class gave inharmonic overtones, and so are musically defective. A special type of drum used in India is a remarkable exception to that rule, says Nature, for it gives harmonic overtones that have the same relation of pitch to the fundamental tone as is found in stringed instruments. The drumhead produces five such harmonics, inclusive of the fundamental tone. The first, second and third harmonics are especially well sustained in intensity and give a fine musical effect. The result is attained through the use on the drumhead of a symmetrical distributed load that decreases in density from the center outward. The load consists of a flexible composition of finely divided metallic iron. A second membrane in the form of a ring is superimposed round the edge of a drumhead. The fundamental pitch and the octave are derived from the modes of vibration of the membrane. The center load improves the musical effect by increasing the energy of vibration, and thus prolonging the duration of the tones.

## MICROBES NOT NECESSARY

Microbes are not indispensable to all life if they are indispensable to any. The question has been definitely settled, it is asserted by some authorities. A cage completely sterilized at ninety degrees was made and the openings of the cage closely stopped with cotton and protected from the outside by a hermetically closed metallic chamber. Such manipulations as were necessary in the opening of the cage were made by hands guarded by aseptic rubber cloth. Into such sterilized cage three hens' eggs were placed after having been externally sterilized. The cage was fitted with a glass pavilion or chicken run, where the chickens could develop during the six weeks' sojourn in the cage. In the cage were sterilized air, pure water, sterilized sand and sterilized feed. The experiments showed that life does not depend on microbes, but that the vital work of the organism is easy and natural when everything is sterilized.

## NO HAY IN THE PHILIPPINES

Because of the great humidity grass can't be cured in the Philippines. As a consequence it is cut fresh every day and brought into the towns and cities for sale at a stipulated price per cargo, two bundles weighing about 125 pounds. It is cut with a small homemade knife and washed in running water before being placed in the bundle. American horses cannot live on it, but native horses eat it and grow fat. Guinea grass and Bermuda are the commonest kinds of grasses grown for horse roughage in the islands, according to a writer in the Philadelphia Public Ledger. For American horses and mules hay is imported into Manila from the Pacific coast states and brings about \$75 per ton. Cats sell for about the same price. On account of the excessive rains oats cannot be grown in the islands; rust affects it. Corn grows well; Filipino farmers can harvest three crops a year from a single piece of ground. To keep it, it is necessary to leave it in the husk; otherwise weevils destroy it. It is tied in bundles and hung on bamboo poles, then husked and shelled as needed. Corn mills are now being established in Visayan islands, where the natives prefer cornmeal to rice as a staple food.

A census of millionaires taken by the income tax division of the internal revenue bureau, although two years behind time, is interesting. It shows that there were 4,000 fewer millionaires in the United States in 1918 than in 1917. The total number of millionaires in 1918 was 20,944.

During the ceremony of the "crossing of the equator" on his recent voyage the Prince of Wales burst forth as a poet, composing an "Apostrophe to Neptune." It contains considerable slang, evidently for shipboard consumption.

## Christmas Gift Boxes

Stop for just a moment and think over the list of Eastern Friends to remember with a California Gift. Imagine them in the cold, frozen states, all huddled around a fireplace. They would be overjoyed with happiness if they should receive one of our Christmas Boxes from you and California on Xmas morning delivery.

## At Chaffee's

The Gift Boxes are packed and prepared ready for shipping. Just give us the names of the persons to whom they are to be shipped. We ship them for you.

## Today—

Or early in the morning is time enough to get the gift on its way and delivered by Christmas Day

Please the old folks, as well as the young ones back home.
